

Software Engineering Leader and AI Engineer with a Ph.D. in Mathematics from the University of Michigan. Experienced in designing and leading large-scale system architectures, production ML and data pipelines, and enterprise-grade AI solutions. Former Staff Software Engineer at Google with a track record of mentoring engineers, driving technical direction, and collaborating with researchers.

EXPERIENCE

Founder

Mar 2026 - Present

BeanOS.ai

Building BeanOS, a self-evolving meta-harness for secure agentic orchestration. BeanOS runs AI work in ephemeral containers with credential brokerage, central knowledge management, and fully auditable execution—giving agents autonomy while humans retain control. Already powering multiple businesses across diverse verticals.

PythonClaude CodeAnthropicGCPTerraform

AI Engineer

May 2025 - Mar 2026

TWG.ai

Delivering high-performance AI solutions to solve real business problems. Building SOC 2 compliant AI systems grounded with proprietary business knowledge. Enterprise-grade AI applications for diverse industry clients. Designed AI evaluation system architecture. Led database design and schema modeling. Established CI/CD pipelines and AI-Ops practices.

PythonLangGraphAzureCI/CDAI-OpsOpenAIAnthropicFastAPIRedis

Database Design

Staff Software Engineer & Tech Lead (L6)

2018 - May 2025

Google

Tech Lead of a mission-critical, ML-based prediction engine serving billions of daily queries to forecast ad clicks, conversions, and cost. Architected high-performance, low-latency system with strict SLAs at massive scale. Led team in data pipelines, feature engineering, and real-time ML inference. Built GenAI/Agentic systems for code development and reasoning.

C++PythonML PredictionLow-LatencySQLProtocol BuffersGenAI

Founder & Head Consultant

2015 - 2018

GP Group LLC

Software engineering consultancy. Clients: Amcor, Karamba Security, FireLayers (ProofPoint). Malware detection, browser security APIs, custom BI solutions. Technical due diligence for investors.

PythonDjangoMongoDBAndroid

Sr. Software Developer & Team Lead (Captain)

2010 - 2014

Israel Defense Forces (IDF)

Led team of 8 engineers. Developed solutions on networked systems. Spearheaded internal coding bootcamp. Research in OS, networks, security, and mobile technologies.

PythonCLinuxSecurity

Engineer (Lieutenant)

2007 - 2010

Israel Defense Forces (IDF)

Performance analysis of complex systems. Assembled new tools resulting in exceeded KPIs.

Instructor

2005 - 2017

University of Michigan & Technion

Taught Calculus, Linear Algebra, and C-language. Created GRE Math MOOC (SubjectMath.com) with 80 hours of materials and 12,140+ students.

EDUCATION

University of Michigan, Ann Arbor

Ph.D. in Mathematics

2015 - 2018

NSF-supported research

Technion – Israel Institute of Technology

M.S. Mechanical Engineering

Summa Cum Laude, GPA 99.9/100

B.S. Mechanical Engineering

Summa Cum Laude, 1st in class, Valedictorian

B.S. Mathematics

Summa Cum Laude, 1st in class, Valedictorian

2003 - 2007

SKILLS

AI & Machine Learning

Agentic AI, LangGraph, LLM APIs (OpenAI, Anthropic, Google), GenAI Systems, Time Series Analysis

Languages & Frameworks

Python, C++, C, SQL, FastAPI, Django, Protocol Buffers

Infrastructure

Azure, GCP, Docker, Redis, MongoDB, Linux, Git

Data Engineering

Pandas, Polars, Flume, SQL, ML Pipelines

AWARDS

- ★ Top performance reviews & accelerated promotions at Google
- ★ National Mathematics Olympiad Medalist
- ★ National Public Speaking Contest Winner
- ★ Two-time IDF Excellence Award
- ★ Top 20 Most Promising Students in Israel (Globes)
- ★ National Award from Israeli Parliament
- ★ IDF Officers' Training with Honors
- ★ WSEAS Conference Speaker (Athens)
